SUBJECT INDEX

A

ACTH, cortisol production in response to, 684
  effects of, on adrenal weight, 248
  pituitary, comparison of Metopirone and other tests of, 953
    Metopirone test of, 945
  prolonged excessive production of, activation of testicular adrenal rest tissue by, 861
  response of hirsute women to, 413
  urinary, clinical applications of assay of, 143
Adenoma, adrenal, synthesis of DHEA by, 671
Adrenal carcinoma, dehydroisoandrosterone in, 481
Adrenal cortex, biochemical investigation of functional zonation of, 776
Adrenal cortical disorders, 17-KGS and PSC in, 828
Adrenal function, of hirsute women, 413
Adrenal medullary function, measurement of, 834
Adrenal weight, and effects of ACTH, 248
Adrenocortical carcinoma, steroid hormones in, 923
Adrenocortical hyperfunction, appraisal of, 725
  and potassium metabolism, 737
Aldosterone, during pregnancy, effect of, 1247
Aldosterone metabolism, thyroid effect on, 873
Aldosteronism, and early feminization, 358
  primary, and the slow Na_e pool, 928
Androgens, absence of, in human ejaculate, 521
Androstenol, in man, 491
Angiotensin, labeled with I^{131} and with tritium, 313
Anti-ovulatory compounds, mechanism of action of, 391
Antithyroid antibodies, utilization of, in investigation of antigenic thyroid substances, 387
Autoantibodies, adrenal, and thyroid, 1179

B

Betadine, effect of, on serum PBI, 395
Blood estrogens, in late pregnancy, 1141
Bone, Na and K in, mineralocorticoid effects upon, 938
Breast cancer, disseminated, calcium and phosphate in, 1115
  urinary estrogen excretion in relation to, 433

C

C_{19} steroids, and precocious sexual hair, 704
Ca^{45}, ultrafiltration of, from patients with protein abnormalities, 981
Cancer, adrenocortical, therapy of, with o, p′ DDD, 218
  metastatic, thyrotoxic crisis from, 1096
Carcinoma, adrenal, origin of pregnanetriol in, 266
Choriocarcinoma, thyroid function in, 658
Citrate metabolism, human, kinetics of, 1029
Corticoid, urinary, excretion of, influence of body size and sex on, 677
Corticosteroid-binding capacity, of plasma, 459
Corticosteroids, conjugated, extraction of, 1192
Cortisol, conjugation of, in periodic fever, 95
  effect of short-term therapy with, on urinary excretion of free amino acids, 996
  potentiation of, by estrogen treatment, 261
  secretion rate of, and Metopirone, 773
Cretinism, due to thyroidal dysgenesis, 615
  endemic, in Goiaz, Brazil, 407
    and hypothyroidism, 325
Cretins, endemic, iodine metabolism in, 847
Cushing's syndrome, cortisol metabolism in, 1271
  dexamethasone suppression test in, 167
  influence of L-triiodothyronine on steroid hormone metabolism in, 156
  pregnancy in, 971
  steroids in, 651
  urinary unconjugated cortisol determination in, by glass fiber chromatography, 820

D

Dehydroepiandrosterone sulfate, synthesis of, by an adrenal adenoma, 671
Dehydroisoandrosterone, in adrenal carcinoma, 481
  and dehydroisoandrosterone sulfate (interconvertible compounds), secretory rates and peripheral metabolism of, 346
  metabolism of, 665
Dehydroisoandrosterone glucuronoside, occurrence of, in normal human urine, 588
Dehydroisoandrosterone sulfate, biosynthesis of, by human adrenocortical tissue, 90

Dexamethasone suppression test, in Cushing's syndrome, 167
DHAS, conversion of, to estrogens, 1298
Diabetes, antithyroid antibody and chronic thyroiditis in, 119
Diabetes mellitus, and atherogenesis, 1013
Diabetics, sex difference in FFA levels in, 1080
Dwarf, pituitary, case report of, 1058
Dwarfism, pituitary, SF measurement in, 638

E

EEG, and thyroid deficiency in man, 470
Endocrine disorders, alterations in free fatty acid metabolism in, effect of thyroid hormone on, 33
sequential studies and effect of 2-deoxy-D-glucose on, 41
Estradiol 6, $7H^3$, radioactivity after, 306
Estradiol valerate, effect of, on height in prepubertal girl, 1125
Estrogen(s) effect of, on thyroxine secretion during infancy, 811
intra-amniotic, disposition of, by women, 503 in late pregnancy, 445
metabolism of, role of 2-hydroxyestrone in, 207
and plasma orosomucoid, 214
Etiocholanolone conjugation, in periodic fever, 95
Eunuchoidism, familial hypogonadotrophic, with cerebellar ataxia, 107
Exophthalmos-producing substance, TSH and LATS, parallel assays of, in some endocrine disorders, 336

F

FFA levels in diabetes, sex difference in, 1080
Follicle-stimulating substances, in pregnancy urine extracts, 986
Free fatty acid metabolism, in endocrine disorders, effect of thyroid hormone on, 33
sequential studies and effect of 2-deoxy-D-glucose on, 41

G

Glucose dose, effect of, on intravenous glucose tolerance, 1074
Glucose tolerance test, intravenous, at sea level and at high altitudes, 1256
Glycoprotein metabolism, in hypo- and hyperthyroidism, 561
Goiter, endemic, T_4* and T_3* in, 1067
in western New Guinea, 1203
simple, defective deiodination in, 132
sporadic nontoxic, thyroid proteins in, 149
Goitrous gland, iodine escape from, 550
iodine metabolism in, 539
Gonadal dysgenesis, with XO/XX mosaicism, 752
Gonadotropin, feminizing adrenal cortical tumor responsive to, 173
human chorionic, in serum, determination of, 125
human urinary postmenopausal, clinical effect of, 181
urinary excretion of, of patients in remission from choriocarcinoma and related trophoblastic diseases, 368
Growth hormone, human, metabolic activity of individual electrophoretic fractions of, 315

H

HCG effect before and after oophorectomy, in a patient with Stein-Leventhal syndrome, 1177
Hermaphrodism, familial true, 203
HGH, identification and measurement of, 1107
Hirsutism, "idiopathic," 17-KGS and PSC in, 828
Histidinemia, metabolism of 2-C^{14}-labeled L-histidine in, 595
Hormones, interconvertible (dehydroisoandrosterone and dehydroisoandrosterone sulfate), secretory rates and peripheral metabolism of, 346
Human chorionic gonadotropin, antigenic assessment of follicle-stimulating principle in, 54
effect of prolonged treatment with, on endogenous steroid metabolism of physically and mentally retarded boys, 11
Hyperparathyroidism, calcium dynamics in, 891
Hyperplasia, hypertensive congenital adrenal, cortisol metabolism in, 191
Hypertension, benign essential, adrenal cortical function in, 574
Hyperthyroidism, effect of prednisolone and triiodothyronine on thyroid function in, 76
Hypoglycemia, leucine, naturally occurring and experimentally induced sensitivity to, 579
Hypothyroidism, and endemic cretinism, 325
juvenile, and sexual precocity, 805

I

Insulin, resistance to, characteristics of, 1001
simple immunoassay for, 1237
Iodine, excretion of, estimates of, 1218
repletion after deficiency, 568

K

Ketosteroid chromatograms, new staining technique for, 355
Klinefelter's syndrome, hormone assays in, 197

L

L-Thyroxine, labeled, deiodination of, to L-3,5,3'-triiodothyronine, in pituitaries, 140

L-Triiodothyronine, influence of, on steroid hormone metabolism in Cushing's syndrome, 156

M

Menstruation, precocious, in a mongoloid, 1302
Metaperiodate oxidation, sodium, determination of urinary 17-ketogenic steroids by means of, 533
Metopirone, and cortisol secretion rate, 773
effects of, on adrenal cancer, 629
Metopirone test, comparison of, with other tests of pituitary ACTH, 953
of pituitary ACTH, interpretation of, 945
Monogolism, thyroid function in patients with, 311
Muscular dystrophy, myotonic, the testis in, study and comparison with the Klinefelter syndrome, 59
Myocardial infarction, atherogenesis in patients with, without known diabetes mellitus, 1013

N

Neomercazole, in thyrotoxicosis, 1130

O

Obesity, with pink striae, adrenal cortical function in, 747
o,p'-DDD, action of, on steroid biotransformation, 918
in adrenocortical cancer therapy, 218
Osteoporosis, and osteomalacia, skeletal calcium retention in, 605

P

PBI, serum, elevation of, in acute intermittent porphyria, 1185
Peptides, adrenocorticotropic, adrenal stimulation by, 792
Periodic fever, steroid conjugation in, 95
Phenylthiourea taste testing, in Hiroshima subjects with thyroid disease, 961
Pituitary-adrenal, during surgical stress, 419
Pituitary adrenocorticotropic release, circadian rhythm of, in man, 975
Pituitary glands, human, collection, processing and fractionation of, 694
Pituitary tumor, ovarian dwarfism with, 50
Plasma corticoids, simple method for determination of, 293
Plasma 17-ketosteroid sulfates, transesterification method for measurement of, 990
Pools, open systems of, tracer analysis of, 1155
Porphyria, acute intermittent, PBI in, 1185
Povidone-iodine, topical, effect of, on serum PBI, 395
Pregnancy, late, estrogens in, 445
Pregnanetriol, in adrenal carcinoma, 266
Progesterone-4-C^{14}, effect of aging on metabolism of, 286
Prostate cancer, steroid hormone metabolites before and after orchiectomy for, 523
Pseudohypoparathyroidism, with osteitis fibrosa cystica and impaired absorption of calcium, 759
Pseudopuberty, precocious, rare case of, 1262
Puberty, precocious, and aldosteronism, due to an ovarian androblastoma, 358

R

Radiothyroxine, resin uptake of, temperature effect on, 222
RAI, and psychotropic drugs, 881
Rickets, vitamin D-resistant, and high calcium intake, 903
Ring D–α-ketols, as metabolic products of estrogen in the nonpregnant human, 279

S

S^{35}-thiosemicarbazide, estimation of testosterone in blood by use of, 620
Serum, cholesterol esterifying activity of, 1024
Serum PBI, diphasic seasonal variation of, 383
Serum ribonuclease, and thyroid hormone, 426
17-Ketogenic steroids, urinary, determination of, by metaperiodate oxidation, 533
17-Ketosteroids, analysis of, gas-liquid chromatography in, 255
conjugated, hydrolysis of, 81
Sexual precocity, and juvenile hypothyroidism, 805
16-Androsten-3α-ol not a peripheral metabolite of testosterone, 491
Sr^{85}, ultrafiltration of, from patients with protein abnormalities, 981
Stein-Leventhal syndrome, HCG effect before and after oophorectomy in, 1177
steroids in, 374
Steroid biosynthesis, by feminizing testes, 1044
Steroid biotransformation, peripheral action of *o,p'*-DDD on, 918
Steroid circadian rhythms, effect of altered thyroid function upon, 242
Steroid hormones, in fetal testes, 885
Steroid metabolites, conjugated, from human urine, 799
Steroids, in human ovarian vein blood, 1267
isotopic, for measurement of production rates, 1285
Struma lymphomatosa, in mother and daughter, 465

T

Testes, feminizing, steroid biosynthesis by, 1044
Testis, in myotonic muscular dystrophy, study of, and comparison with the Klinefelter syndrome, 59

Testosterone, in human peripheral blood, estimation of, using S^{35}-thiosemicarbazide, 620
in human urine, 301
Tetrac, in a human thyroid nodule, chromatographic identification of, 836
Thyroglobulin preparation, early metabolic effects of, in man, 489
Thyroid deficiency, in man, EEG changes accompanying, 470
Thyroid disease, catechol amine metabolites in, 1102
serum malic dehydrogenase in, 211
Thyroid function, in hyperthyroidism, effect of prednisolone and triiodothyronine on, 76
perchlorate test in study of, 786
Thyroid hormone, effect of, on human serum ribonuclease, 426
Thyroid proteins, in sporadic nontoxic goiter, 149
Thyroid stimulator, long-acting (LATS), TSH and EPS, parallel assays of, in some endocrine disorders, 336
Thyroiditis, exophthalmos, digital clubbing and pretibial myxedema in, 215
mild auto-immune, low TSH levels with high radioiodine uptake in, 510
subacute, TSH suppression in, 235
Thyrotoxic crisis, iodine metabolism in, 397
from metastatic cancer, 1096
Thyrotoxicosis, iodoalbumin in plasma in, after I^{125} and I^{131}, 1056
significance of rate of response to Neomercazole and other antithyroid agents, 1130
Thyrotrophin, EPS and LATS, parallel assays of, in some endocrine disorders, 336
Thyrotropin levels, blood, in thyrotoxic patients, 229
Thyroxine-binding globulin, measurement of capacity of, 116
Thyroxine secretion, effect of estrogen on, during infancy, 811
Tolbutamide, absence of teratogenic effect of, in rabbits, 597
Triiodothyropropionic acid, failure of methyl ether of, in endocrine exophthalmos, 317
Tumor(s), "adrenal rest," 851
feminizing adrenal cortical, gonadotropin-responsive, 173
nonpancreatic, insulinlike activity of, 1229
Tumor patients, HCG *vs.* HPG in, 368
Turner's syndrome, 45/XO, in the newborn, 1
2-Hydroxyestrone, in estrogen metabolism, 207
2-Methoxyestrone, as an estrogen metabolite in the human subject, 274

U

Urinary estrogens, and breast cancer, 433
Urinary gonadotrophin-inhibiting substance, effect of, on APL and Pergonal, 870
Uterotropic activity, in human ejaculate, 28

X

XO/XY chromosome mosaicism, 1090
syndrome of gonadal dysgenesis and abdominal testis with, 709
